Welcome to the Advisor Institute!

On behalf of the Advisor Training and Education Committee, we would like to welcome you to the Spring 2021 Advisor Institute! We have an exciting program, which we hope will enable you to learn from one another, network, and develop your skills and knowledge.

Legend of Symbols for Core Values and Advising Competencies

To help guide your professional development, a key of symbols for the Core Values and the Advising Competencies are provided below. You will see some of these symbols next to each presentation to inform you which of the values and competencies the presentation fulfills. We hope you utilize this resource to guide your selection of topics at the Advisor Institute.

Presenters were requested to inform the committee which Values and Competencies were addressed in their Breakout Session. In instances where information from presenters were not supplied, the committee decided as a group which Values or Competencies the session addressed based on the proposal submission.

The Core Values (CV) are taken from the NACADA Statement of Core Values which “reflects the many cultural and educational contexts in which academic advising is practiced globally. These values apply to all who perform academic advising by any role, title, or position as educators at their institutions. While nations, institutions, and students will offer unique circumstances, the Core Values provide guidance to academic advisors in their professional lives. Academic advisors are committed to the students they advise, their institutions, their professional practice, and the broader advising and educational community.”

The Advising Competencies (AC) were authored by the Advisor Training and Education Committee utilizing resources from: NACADA Academic Advising Core Competencies, the NASPA Professional Competencies, and the NODA Core Competencies.
